Easter 2021

Devotionals from Pastor Sell

Tuesday, April 6

Recently I have been hooked on ‘how to...’ TV programs. The ones I find most fascinating visit factories where massive, complex machines make food products. It is unreal to watch the robotic machine whiz back and forth completing tasks beyond my imagination. I’ve also been fascinated by the program called “How did they build that?” which follows architects and engineers as they design and build incredible buildings around the world. Man’s ability to conceive of and build is truly amazing.

Even more amazing is the creative power of God. Humans can hardly grasp how so much of the world functions. Yes, we can talk about DNA and genetics. We can discuss many biological processes. We can mix chemicals and invent new products. We don’t, however, even begin to understand the fullness of God. Easter reminds us not only of God’s power but of his great love shown in Jesus’ resurrection which is beyond our comprehension.
