DAILY DEVOTIONAL FROM PASTOR SELL

Friday, August 20

Bletchley Hall was the site of an extremely secret effort of the British government to break the code of the Germans during WWII. Young people, especially women, were recruited to work with the complex codes of history in an attempt to find the key. Alan Turing developed a computer that finally broke the code and enabled Britain and the United States to win the War. Bletchley Hall was eventually able to send word of German movements within hours. It was not easy work but it was important.

Sometimes as Christians we want quick answers to our prayers. We want our problems solved ASAP. God, however, has only three answers to prayer 'Yes, No, and Wait-A-While.' The wait may be difficult but it will come and it will be the right answer at the right time. Clarity will come. Don't give up on prayer. Trust your heavenly Father.
