## ***DAILY DEVOTIONAL FROM PASTOR SELL***

### **Tuesday, August 3**

I've been watching foreign films lately. I saw one made in Siberia, another in Nepal, and still another about Singapore. I knew a little bit about each area and at first the countries seemed strange. Yes, it is a bit of a chore to watch the film and read the subtitles, but it was worth the effort as I learned about the countries and the people. I was challenged to think about new things in new ways.

Jesus encountered many different people on his journeys. The poor, the rich, the sick, and the mentally ill were all treated with compassion and understanding. Their innermost needs were met by the Lord of the universe. As Christians it is important to remember we are all Children of God and important in His sight.
