DAILY DEVOTIONAL FROM PASTOR SELL

Monday, August 30

I was walking from Cooper House to the side door of the church when I saw what looked like a very large bug. Going over to investigate, I discovered a very tiny hummingbird. It was smaller than my thumb and reflected electric blue and green feathers. The bird darted from one yellow flower to another for a minute or two and then flew away. I stood there for a while contemplating how very tiny it was. The small wrens in my garden were huge compared to this tiny creature. It was a marvel of size. So tiny yet having heart and lungs; all that was needed for life. God had done a marvelous thing.

So often we think about God and the big things. We remember Jesus fed the 5000 but forget each one was an individual seemingly small among the crowd. We remember Jesus died for the sins of the world while declaring Jesus died for ME. Our God is a God of the big and the small, even the very smallest. Our God is and awesome God!
