## ***DAILY DEVOTIONAL FROM PASTOR SELL***

### **Tuesday, February 8**

Snow by the edge of the road has been slowly melting and it is dirty. No longer does the snow glisten white in the sunlight. It is mixed with gravel and dirt from the plows. From time to time during the winter new snow will cover the old. The amazing thing is that the melting snow will be held in the earth and eventually water the new growth of spring.

God's forgiveness in Jesus is like that. We sin, we are forgiven and made new only to sin again. God's forgiveness is always there just for the asking. Jesus' death and resurrection sealed this promise of forgiveness.
