DAILY DEVOTIONAL FROM PASTOR SELL

Wednesday, January 19

I have kept my really old cell phone, a 3. I currently have a 20, so it's really old. It is so old in fact that I had to get a new phone because it was still analog when everything switched to digital. Years ago, rather than tossing it in the trash, I installed Google Star Map. It is a neat little program which allows you to point at a star, planet or constellation and it tells you what it is. Over the years I have had a lot of fun and learned a lot with that old, supposedly worthless old phone.

The Bible has ancient words to share. They may be 2,000 or 3,000 or more years old, but they are still useful in today's world. It contains stories of people facing similar life situations. Do not leave it on the shelf just because it is old, or you have read it before. It still has much to share.
