## ***DAILY DEVOTIONAL FROM PASTOR SELL***

### **Monday, June 14**

The Weather Channel had an interesting video short recently showing two bees unscrewing the cap on a Fanta soda bottle. I sometimes have trouble opening bottles, so the headline grabbed my attention. How could two little bees possibly take the cap off a soda bottle. I watched the video several times and each time I was in awe. Sure enough, working together the two bees did in fact unscrew the bottle cap and remove it.

I could not help but think about the Disciples and the small band of Jesus followers. Twelve men changed the world and had a long-lasting effect on human history. Zion is not big congregation but working together, each person and family contributing, can do great things in this part of Lancaster County. If two bees can unscrew a bottle cap think what the people of Zion can do.
