DAILY DEVOTIONAL FROM PASTOR SELL

Thursday, June 3

Have you ever looked at the weathervane on the roof of the Cooper House garage? Where you might expect to find a rooster or a farm animal there is an older model convertible roadster with a spare tire attached to the rear. On a hunch, I did a Google search on Cooper cars and found similar cars that were made in the 1960s by the Cooper Car Company in England. Anne mentioned the nearby Cooper Garage and car dealership. What interesting connections.

We are interconnected in so many ways – families, communities, jobs, children’s activities, social clubs and, yes, church. That interconnectedness makes life meaningful and interesting. This sense of community goes back to the very beginning. Think about lonely Adam before he was introduced to Eve. Jesus called 12 disciples to travel with him in ministry. A variety of connections is important for healthy living.

Join us for Sunday worship or church activities when you are ready and feel safe doing so.
