## ***DAILY DEVOTIONAL FROM PASTOR SELL***

### **Friday, March 11**

I saw an interesting video clip about policing in the rural areas of China. The police there used trained flocks of domestic white geese to chase criminals and break up crowds. At first, I laughed because I have seen American Police use dogs and believe me, they ARE EFFECTIVE. Then I thought about the one or two times I have been chased by a goose on a parishioner's farm. I did get out of the way pretty fast. Maybe geese do have a place in police work.

As Zion continues to open as the pandemic restrictions ease, we need to think outside the box, may we need to burn the box and explore what new things might work in our new world. It will not be easy, but if we all work together, God promises great things will happen. The Holy Spirit empowers the people of God to dare to explore new paths of ministry.
