## ***DAILY DEVOTIONAL FROM PASTOR SELL***

### **Monday, November 22**

It was the first frosty morning. I started my car and the dashboard lit up with the words LOW TIRE PRESSURE INFLATE NOW. Well, that got my attention. I headed to the only place I knew to get air. I drove up to the machine and found there was a charge. I got out my card and complied. I was surprised later in the day to find my bank account had been charged \$3.50 for air. Imagine that \$3.50 for God given air. Fifty years ago, a young man in a clean uniform would have put the air in my tires, checked the fluids, and pumped my gas for the price of the gas or about \$1 a gallon.

It is a good thing God is more gracious than the air pump. God provides for our wellbeing. God even allowed his Son to die for me and for the forgiveness of my sins. Thank God he gives so freely.
