## DAILY DEVOTIONAL FROM PASTOR SELL

## **Tuesday, October 19**

There are days when I feel like I need to plugin and recharge my life. I need to recharge my cell phone, laptop, Fitbit, insulin pump, my power tools... I dread the day I need recharge everything at once.

When you need to recharge your devices, try saying a brief one sentence prayer and recharge your relationship with God. A quick prayer of thanksgiving or a request is all God needs. It is the best personal recharge you can make.
