DAILY DEVOTIONAL FROM PASTOR SELL

Friday, September 17

Hurricane Ida hit the South and East coast with great ferocity. Wind, rain, tornadoes, and floods ravaged the land. Some lost trees, electricity or had flooded basements. Other people lost everything. Recovery will take months for those in the South and in New York/New Jersey. Although there were warnings and people were able to evacuate, the time was short. Life changed in a matter of hours. It would never be the same.

As Christians it is important to keep our faith strong. We know life will happen and in a moment it can change. While it is true God is there even at the last minute, there is great comfort in knowing God and the fact he is with us always. There is comfort and hope in walking day by day with our heavenly Father.
